STRENGTHS

- nice job persisting with your question (what he will be doing differently) even when he avoids answering. Good.
- 7:51 focusing on recovering from his mistake, getting angry.

- lots of encouragement throughout.
- the message (would have liked to hear this).

FUTURE RECOMMENDATIONS

- a bit too much “lecture” .. Stick with the process and facilitate his work more. More feeling focused, open questions that help him explore, details of exceptions and goals.
- detail, detail, detail (e.g., what is he doing to have resolve?)
